The purpose of this meeting was to conduct a budget workshop to set water and sewer rates for new billing periods.

Trustee Gunza recommended that fire hydrants be replaced in house and the possibility of accepting partial payments for utilities. Trustee Gunza also suggested to skip putting money into a reserve equipment fund this year.

The Mayor responded these were down the road discussions and tonight's purpose is to set rates. He further stated he was not in favor of any water rate increases.

Trustee McCormick responded that an increase was needed and that the discussion of 5% increase across the board for water, would probably still not be enough to help the water and sewer departments. Trustee McCormick reported he would like to make things easier for the public and suggested the Village go to quarterly billing.

The Mayor asked Mr. Hurst how many hydrants needed replacement and how long it takes to replace one. Mr. Hurst responded that three in Ondaora Park need to be done and that it takes about a day and half to replace one. Mr. Hurst said he tries to replace three a year. Mr. Hurst also reminded the Board that fire hydrants are a safety concern and need to be operational when needed.

Trustee DiSalvo motioned to start the replacement of three hydrants, budgeted for in 2010-2011, in house. The motion was seconded by Trustee Brown and unanimously carried.

Trustee Brown motioned that there be no increase to the water rates for the May 2011 billing, they are to remain at \$68.80 for the first 0-5000 gallons and \$3.97 for each 1000 gallons thereafter. The motion was seconded by Trustee DiSalvo and on a roll call vote, the results which follow:
