Discussion was held on hiring James Patterson in the WWTP as a Maintenance Worker at a salary of \$24.00/hr. Trustee Gunza commented that she thought the general public would be better served to hire at the starting salary of \$15.00/hr . She commented further that the sewer plant faces may repairs and this would be the opportunity to lower salary costs in the WWTP. Trustee McCormick agreed saying the difference in starting salaries would be approximately \$20,000/yr. He commented further that there is approximately \$600,000 of work needed at the WWTP. He said it is strictly a financial reason.

The Mayor commented that Trustee McCormick was inaccurate on the cost of repairs. He encouraged Trustee McCormick to speak to the Village Engineer about the repairs needed. The Mayor reported to the Board the dollar amount in savings if James were to go to the WWTP with the current personnel in place. He emphasized that James’ mechanical skills would further save the Village money down the road.

Trustee Gunza commented that the amount of savings could be even higher if the starting salary was \$15.00/hr. Trustee DiSalvo commented that overall a savings will be realized because now the Village can hire a Maintenance Worker in the DPW for the lower salary to replace James transferring to the WWTP. The savings would be realized in the General Fund.
