

RESOLUTION
VILLAGE OF HIGHLAND FALLS BOARD OF TRUSTEES
Drainage Improvements to Existing Drainage Facilities on Schneider Avenue

New York State Environmental Quality Review Act Determination
Date: September 17, 2019

This notice is issued pursuant to Part 617 of the implementing regulations pertaining to Article 8 (State Environmental Quality Review) of the Environmental Conservation Law.

The Board of Trustees of the Village of Highland Falls, as the only Agency authorized to effectuate improvements to the Village drainage system and is, therefore, the only agency authorized to act as lead agency pursuant to the New York State Environmental Quality Review Act (“SEQRA”), has determined that the proposed action described below is a Type II action and will not have a significant adverse effect on the environment.

- Title of Action:** Improvements to the Village drainage system.
- SEQR Status:** Type II Action pursuant to 6 NYCRR 617.5(c)(2), (c)(6)
- Description of Action:** Replacement of existing drainage facilities in-kind within the same location being the right-of-way along Schneider Avenue and continuing within a drainage easement owned by the Village of Highland Falls.
- Location:** Schneider Avenue, Village of Highland Falls

Reasons Supporting This Determination:

The Board of Trustees has determined that this project is a Type II action pursuant to the regulations implementing the State Environmental Quality Review (SEQR), specifically 6 NYCRR 617.5(c)(2), “replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part,” and 617.5 (c)(6), “street openings and right-of-way openings for the purpose of repair or maintenance of existing utility facilities.”

The NYS Legislature has determined that Type II actions are not subject to review under State Environmental Quality Review (SEQR) Part 617. These actions have been determined not to have a significant impact on the environment or are otherwise precluded from environmental review under Environmental Conservation Law (ECL), article 8.

RESOLUTION:

BE IT RESOLVED, that based on the Village Board’s review and consideration of the Project, Long Form Environmental Assessment Form, and consideration of the criteria set forth in 6 NYCRR 617.5 identifying Type II Actions under SEQRA, the Village Board determined that the project is the replacement, rehabilitation or reconstruction of a facility or structure in kind on the same site, which is a Type II action under SEQR pursuant to 6 NYCRR Part 617.5(c)(2) and requires no further review under the SEQR process.

On a motion by Trustee Livsey, seconded by Trustee DiSalvo, the foregoing resolution was adopted on a roll call vote of 5 Ayes, 0 Nays.
